

As further noted in such Response, The Office Action states that the application (of an array of pinholes) "is greatly used in the art...". May we have an example of such art that we may respond to it?

Accordingly, the above CIP is submitted that its "improved" claims can be examined and perhaps allowable subject matter seen.

Also enclosed is a Petition for a 1 month Extension of Time, for each of the prior copending applications for which the required payment is made as indicated.

In view of the foregoing, the present CIP claims are believed distinguished over the applied art and in condition for allowance. Early notice of allowance is requested.

In accordance with Section 714,01 of the M.P.E.P., the following information is presented in the event that a call may be deemed desirable by the Examiner: THOMAS C. STOVER, A/C 781-377-3779.

Respectfully submitted,

THOMAS C. STOVER

Attorney for Applicant
